

Church World Service Webinars

Church World Service Emergency Response Program continues to hold a series of free webinars on various aspects of long term recovery. Details and registration information can be found at www.cwserp.org

The schedule for the next several webinars is:

January 3 and 4: Long Term Recovery Basics.

This series of 50 minute webinars over two days will introduce the concepts and best practices that communities employ for effective long term recovery.

February 7: The VALs: Your Friends in Disaster Recovery

Federal, State or County Voluntary Agency Liaisons are the government folks who work with voluntary agencies, non-profits, and others to help the local communities recovery. This webinar will explore the ways the VALs support the work of Long Term Recovery and the ongoing work of Voluntary Organizations.

March 6: Long Term Recovery Success Stories

Long Term Recovery Groups are recognized as the best practice for communities recovering from a disaster. This webinar will highlight success stories from several current or recent Long Term Recovery Groups in their own words.

April 3: Who Does What in Disaster Recovery?

This webinar will introduce long term recovery groups to faith based, community based, and other partners and the resources they bring to a disaster affected community.

May 1 and 2: Long Term Recovery Basics.

This series of 50 minute webinars over two days will introduce the concepts and best practices that communities employ for effective long term recovery.
