

Imagine No Malaria!
www.imaginenomalaria.org

Mosquitoes in Africa carry a disease called malaria which kills a person every 60 seconds. Children under age 5 and pregnant women are especially at risk.

How can we help get rid of malaria and save lives? United Methodists have a plan which includes: bed nets, medicine, and training health workers.

Want to join us in ending malaria?

Donations can be made to:
UMC - Imagine No Malaria
PO Box 440544
Nashville, TN 37244-0544

*This mosquito is all in pieces.
Can you put him together again? Use him as a mascot
to tell people about Imagine No Malaria!*

- Fundraiser ideas:**
- *Lemonade stand
 - *Lawn-raking, garden weeding, etc.
 - *Sleepout w/mosquito netting
 - *Your ideas:
-
-
-

Field Coordinator: Bonnie Marden Email: bonnie@umfne.org Ph#:603-329-4444 x106

Materials: 1 brown pipe cleaner cut in thirds (pipe cleaner="pc"); 1 brown pc cut 2/3 length; 1 white pc cut 2/3 length; 1 white pc cut 1/3 length; 2 googlie eyes; glue (some kits may have eyes pre-glued)

Eyes: Roll both ends of 1/3 length white pc to center. Glue googlie eyes to each rolled end. Let dry.

Wings: Fold ends of 2/3 length white pc to center and twist to secure.

Legs: Twist the three 1/3 length brown pcs at their center, then bend ends for six legs.

*Thread 2/3 length brown pc through center of eyes and over wings. Wrap at center of brown pc down under legs and up again, to secure eyes/wings/legs.

Body: Fold back end of 2/3 length brown pc in half, twist for body.

Proboscis: Bend the front end of 2/3 length brown pc...and don't let it bite you!
